

Sad But True

If I could change the world with one thought proper
Then I would start to think real hard
But faced with its blatant complexity
my courage constantly fails...

I really wish that I could say:
“Don’t you fear, help is on its way”.
But empty promises ain’t promises at all.
It’s step by step and move by move
But nothing ever does improve.
The big solution is just nowhere to be seen, no.

Sad but true.
Sad but true.
Sad but true.
Sad but true.
